

## Music Documentaries & Concert Movies Playlist

The 27 October is the World Day for Audiovisual Heritage. This day was chosen by UNESCO to raise awareness of the significance and preservation risks of sound recordings and audiovisual documents (films, sound and video recordings, radio and television programmes). Music documentaries are an important aspect of music collections in libraries and to mark this event we have prepared an extensive list of music documentaries and concert movies that are available on DVD in Cape Town libraries. We would like to introduce you to these amazing resources and the music contained in them.

Many of the documentaries listed below are significant movies in their own right. For instance, the concert movies *Woodstock: 3 days of peace and love* and *Gimme Shelter* brilliantly document momentous events in the history of both Rock music and society as a whole. Similarly, film directors such as Wim Wenders (*Buena Vista Social Club*) and Martin Scorsese (*The Last Waltz*) have made important and beautiful feature films with music as the central subject. Biographical documentaries are also essential viewing for music lovers and these include *Searching for Sugarman*, *A brother with perfect timing*, *Keith Jarrett: the art of improvisation* and *Arvo Part: 24 preludes for a fugue*.

The Cape Town Library Service holds thousands of DVDs and videos, and, our list is just a very small representation of the many DVDs that are available in our libraries. To celebrate the important contribution of filmmakers, videographers and musicians to the development of a music culture internationally we would like you to explore our audio-visual collections.
