

## Music of Africa - Playlists

May is African Unity Month. To mark this event, we have prepared lists of a selection of recordings of music from the African continent (including the islands of Madagascar and Cape Verde) that are available in Cape Town libraries. We would like to introduce you to these wonderful musicians and their music.

Africa is a huge continent with many cultures and nationalities and, therefore, there is a vast array of different genres and styles of music from Africa. In order to guide you around the music of Africa, we have broken up the lists into four main regions – Central & East Africa, North Africa, West Africa and Southern Africa. We have also included a list of South African Jazz recordings.

Some of the better-known genres of music from Africa include: Afrobeat, Juju music, Palm Wine music, Kora music and the Desert Blues from West Africa / Makossa, Kwassa-Kwassa and Ethiojazz from Central and East Africa / Rai, Gnawa and Oud music from North Africa / and, Chimurenga, Mbaqanga, Maskanda and Safrojazz from Southern Africa.

The Cape Town Library Service holds thousands of compact discs and the lists below are just a very small representation of the CDs that are available in our libraries. To celebrate the incredible variety of music that exists on the African continent we would like you to explore our music collections.

The LIS holds multiple titles by many of the artists listed below. For instance, prominent performers such as Manu Dibango from Cameroon, Fela Kuti from Nigeria, Anouar Brahem from Tunisia, South African guitarist Phillip Tabane and many others are well represented in our collections of CDs. Please use the OPAC to search for the availability of specific items, or, enquire at your library about the artists who interest you.
